KHAYLA GIRI FITRIANI

Jln Sariwates Indah III No. 25, Antapani, Bandung, West Java | 087737241139 | khaylagirif@gmail.com | http://www.linkedin.com/in/khaylagiri | https://portofolio-khaylagiris-projects.vercel.app/

I am an active Informatics student with a strong interest in programming and software development. I have experience developing web-based applications using HTML, PHP, Python, Java, and the Laravel framework. Furthermore, I also have experience developing Android mobile applications using Flutter and Kotlin. I am also interested in UI/UX design to create applications that are not only functional but also easy to use. Currently, I continue to develop my technical skills through various application development projects. I am looking for opportunities to start a professional career in web development, Android mobile development, and UI/UX design.

EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY – Bandung *2022 - present*

Active Student Majoring in Informatics

- Obtained a GPA of 3.57 out of 4.00
- Active in student organizations, including serving as Visual Designer for the Itenas Informatics Student Association (2023-2024), Public Relations Staff for the Itenas Informatics Student Association (2024-2025), and Technology Development Staff for the Informatics Student Association (2025-2026).

ABILITY

Hard Skills

UI/UX Design
Web Development
Android Development
Database Management
Project Management

Software / Tools

Figma, Maze (User Testing)
HTML, PHP, Python, Laravel
Flutter, Kotlin
MySQL
Github, API, Trello

PENGALAMAN

PT Enclave Kolaborasi Global – Bandung, Indonesia *September 2024 – Febuary 2025*

Full Stack Developer

- The Invst.id website, built using WordPress, is designed to provide an informative and easily accessible investment platform for users.
- WordPress allows integration with various plugins to support specific functionality needs, such as content management systems (CMS).

PT Enclave Kolaborasi Global – Bandung, Indonesia *September 2024 – Febuary 2025*

Designer Developer

- Creating a One Page Web design using Figma begins with designing an intuitive and responsive layout structure.
- *Figma's prototyping features can be used to create simple interactions, such as scroll or hover animations, that demonstrate how elements on the page will function.*

PT Enclave Kolaborasi Global – Bandung, Indonesia *September 2024 – Febuary 2025*

Full Stack Developer

- Creating a One-Page Website with HTML and CSS involves developing core elements such as headers, hero sections, services or products, testimonials, and footers within a single, structured page.
- Laravel can be used as a CMS (Content Management System). With Laravel, admins can easily manage content such as text, images, or the latest information through a dashboard.
- A form system to receive user input and feedback, the data of which is then processed and stored in a database.

Database Programming – Bandung National Institute of Technology *September 2024 – January 2025*

Laboratory assistant

- Assisting students in understanding database concepts and implementation in Delphi 7.
- Providing a comprehensive understanding of software such as MySQL and HeidiSQL.
- Direct engagement with students and faculty helps develop insights into effective teaching methods and enhance competency in database programming

HOLOGY 7.O – Brawijaya University Malang *September 2024 – October 2024*

National IT Competition 2024

- Create intuitive, user-friendly, and engaging application designs, focusing on the Pocket Plan concept.

- Present user flows, design prototypes, and UX arguments.
- Demonstrate talent, learn, and contribute to the advancement of information technology.

Huawei ICT Competition 2024 - 2025 – Huawei *October 2024 – December 2024*
Practice Competition (Computing Track)

- Focuses on participants' technical skills in computing, such as programming, data management, and cloud-based solution development.
- Technical challenges covering topics such as Python programming, big data management, artificial intelligence (AI), and Huawei cloud services.
- Access to exclusive Huawei training, globally recognized ICT certifications, and opportunities to connect with a community of technology professionals.

PT Kereta Api Indonesia 2025 – Bandung, Indonesia *Maret 2025 – June 2025*
Website Visitor Management System

- Developed a Laravel-based Visitor Management System for guest registration and a structured check-in/check-out process.
- Implemented access control and notification features for guest verification and notification to admins/hosts.
- Provided visit history and reporting with search, data filtering, and report export features.

Digital Image Processing – Bandung National Institute of Technology *Maret 2025 – July 2025*
Laboratory assistant

- Supervise Python-based Digital Image Processing labs, guiding students through GUI implementation and understanding image processing workflows.
- Explain and assist with the implementation of concepts such as point operations, histograms, spatial filtering, and transformations/geometry in program code.
- Troubleshoot and evaluate lab assignments, including checking output results and fixing errors at runtime.

Cipta Nusantara Fest – Riau State University Maret *2025 – April 2025*
National IT Competition 2025

- Participated in a UI/UX competition by designing a culturally themed educational application integrated with science, mathematics, and physics materials.
- Developed user flows and wireframes, including high-fidelity prototypes, focusing on an interactive and user-friendly learning experience.
- Applied design thinking through user needs research, persona creation, and design testing to improve usability.

IDEAFest 3 – STMIK Pradnya Pramita June *2025 – July 2025*
National IT Competition 2025

- Participated in a Food Waste website development competition to help reduce food waste through a digital platform.
- Designed key features such as food management education, food waste reporting/data collection, and information on tips and campaigns for reducing food waste.
- Designed a user interface and website layout for easy access and to encourage user participation in reducing food waste.

PELATIHAN

- **Dunia Coding –** 11 – 12 October 2024
- **HUAWEI HCIA 2024 –** July – September 2024
- **Haltev –** October 2025 – November 2025

SERTIFIKAT

Dunia Coding

E-CERTIFICATE

Diberikan Kepada

Khayla Giri Fitriani

telah menjadi peserta pada acara

Workshop Flutter x Firebase

"Membangun Aplikasi Mobile Real-Time Sederhana Menggunakan Flutter dan Firebase"

pada tanggal 11-12 Oktober 2024 selama 4 Jam Pembelajaran dengan pemateri JORDY DAVE

Ahmad Darmawan Alfir D.
CEO Dunia Coding
